

Sensing biophysical properties in living samples using light microscopy

4 – 9 July 2022 | Rennes, France

ORGANIZERS

Sebastien Huet

Université de Rennes, FR

Giulia Bertolin

Institute of Genetics and Development of Rennes, FR

Helene Bouvrais

Institute of Genetics and Development of Rennes, FR

Stephanie Dutertre

Microscopy Rennes Imaging Center, FR

Mathieu Pinot

Institute of Genetics and Development of Rennes, FR

Xavier Pinson

Microscopy Rennes Imaging Center, FR

Marc Tramier

Institute of Genetics and Development of Rennes, FR

CONTACT

EMBORENNES2022@GMAIL.COM

SPEAKERS

Giulia Bertolin

Institute of Genetics and Development of Rennes, FR

Timo Betz

University of Göttingen, DE

Nicolas Biais

CUNY University, US

Nicolas Borghi

Jacques Monod Institute, FR

Helene Bouvrais

Institute of Genetics and Development of Rennes, FR

Robert Campbell

University of Alberta, CA

Peter Dedecker

University of Leuven, BE

Stephanie Dutertre

Microscopy Rennes Imaging Center, FR

Carsten Grashoff

University of Münster, DE

Elizabeth Hinde

University of Melbourne, AU

Sergi Padilla-Parra

King's College London, UK

Mathieu Pinot

Institute of Genetics and Development of Rennes, FR

Alison Tebo

Howard Hugues Medical Institute Ashburn, USA

REGISTRATION

Application deadline

15 April 2022

Student/Postdoc 300 EUR

Academic 400 EUR

Industry..... 1000 EUR

Online 50 EUR
