

Les Houches Winter School

Fluorescence Markers for Advanced Microscopy : from Photophysics to Biology – Third edition

March 17-22 2024, Les Houches, France

This biophysics school aims at training students and young researchers to master the fluorescent labels used in advanced fluorescence microscopy: their diversity, their mechanisms, their practical use and the developments in the field.

Application at <https://fluorescenceleshouches.wordpress.com/registration/>

Deadline: **October 15th, 2023**

Confirmed speakers

- **Dominique Bourgeois**, Institut de Biologie Structurale, CNRS, Grenoble, France
- **Claire Deo**, EMBL Heidelberg, Germany
- **Ulrike Endesfelder**, Bonn University, Germany
- **Viktorija Glembockyte**, LMU Munchen, Germany
- **Mike Heilemann**, Goethe Universitat Frankfurt, Germany
- **Ludovic Jullien**, Sorbonne University and ENS Paris, France
- **Doory Kim**, Hanyang University, Korea
- **Andrei Klymchenko**, CNRS, Université de Strasbourg, France
- **Emmanuel Margeat**, Centre de Biologie Structurale, CNRS, Montpellier, France
- **Ivana Nikic-Spiegel**, U. Tuebingen, Germany
- **Franck Riquet**, U. Ghent, Belgium
- **Markus Sauer**, U. Würzburg, Germany
- **Nathan Shaner**, UCSD, USA
- **Alison Tebo**, HHMI Janelia Research campus, USA

Organized by Dominique Bourgeois, Claire Deo, Ulrike Endesfelder, Emmanuel Margeat
